LOCATION AND DESCRIPTION

Camp Perrot is situated on the south shore of the Island of Perrot. It is a beautiful camp site overlooking the St. Lawrence River. The property is some forty-five acres in extent and has some six hundred feet of shore line. The swimming facilities are excellent and consist of a sandy, gradually sloping shore. There is a fine house, barn and summer cottage on the property, which will be used for various types of camp programs. The camp property lends itself to the development of an adequate games and waterfront program.

There is a deep artesian well on the property which gives an ample supply of pure drinking water — tested.

Campers will be housed in tents erected over wooden floors. Sleeping accommodation will consist of straw filled ticks.

Plans are under way for the development of a vegetable and small fruit farm which will give those campers interested an opportunity to secure a real farm experience.

The camp is located some six miles from St. Annes, on Isle Perrot.
